

Are you worried about your child?

KinderExpertiseCentrum Brabant supports you and your child with questions about development, education and behavior.

KinderExpertiseCentrum
Brabant

Customized help for young children

KinderExpertiseCentrum Brabant supports when you are worried about the development, education or behavior of your child. Together we will examine what is going on and which support fits best the problems your child is experiencing.

Customized help

Young children benefit from quick employable customized help. Our services specifically focus on those issues that your child encounters. We take a broad look at all aspects of development and listen to what you and your child need.

You quickly know what's going on

We plan an intake interview and test within a few weeks.

Usually you will get the results within 2 to 3 weeks after testing.

The process:

- Intake interview & test
- Results & independent advice for eventual next steps

Referral

With a referral from the juvenile doctor, family doctor, pediatrician or an indication from the municipality you can register your child with us.

Our care is in most cases free of charge and will be paid from government regulations.

Who are we?

As a licensed specialist healthcare institution we provide care for over 50 years to children from 0 years old. We are unique in Brabant.

Our multidisciplinary team makes professional diagnoses and provides independent advice on possible next steps.

Do you want to know more or make an appointment?

You can call us on 088 551 6666 or send an e-mail to info@kecb.nl
